

Lesson - 1 MAKING ANIMATION

You will design animation on this site (GIF) as you are the author of this lesson. Your main input will be your imagination. The tools you will use are those that you discover in front of you.

Go to the Technology Website and Live Binders

1. Choose Make an Animation top row.
2. You will view below an image that will appear if you are on the correct site.
3. Look or backgrounds and images and also you may, import, introduce a photo from google. Decided what your gif will be about.
4. Click on images and choose who you wish to place in this story.
5. You may copy the frames if you like and adjust movement in your characters showing motion for each frame or what your imagination conveys to you. Try to create a gif that is longer than 15 frames.
6. A gif is animation. (When you are done create your gif. Save it in your folder with the name (GIF). To see this animation work you may go to Power point and insert it as a picture then run power point.
