

LESSON 1 CREATING QR Codes

Name _____

Directions: This lesson will transfer you to a webpage that will show you how you may Blend technology using QR Codes.
The webpage has videos and examples to accommodate your learning.

QR Codes in the Classroom

Quick response (QR) codes are easy to create and have many uses in the Classroom or if you wish to design something unique for that special occasion Or person.

With the posting of a QR code, you can design a fun and more interesting Method of creating. This lesson provides links to QR code readers and creators and of ideas for their use.

To find how to create QR Codes and other sources needed go to the website I have posted here ... website www.teched-resources.org

- A) Scroll down to on the main webpage to the button that says (WRITING CODE).
 - B) Scroll down this page and you will find a link to how to create QR Codes.
-
1. Create a QR Code to display a saying or a location or a hint or clue to several other QR Codes.
 2. Printout a hard copy of your inspiration and turn this into your teacher.
