

## 5 EXCEL LESSON (5) – Picture Graph of Boxes of Chocolates

1. In Cell A1 Merge & Center then type in: **Boxes of Chocolates Sales Merge and Center A1 - C1**
2. In Cell A2 Type in your name and grade Merge and Center to A1-C1
2. Use the chart below to type in the different Students and number of Boxes they sold.
3. Highlight cells **A3-B8** Go to Insert columns and then **cylinder** create a chart.
4. Click on the first **Student twice** so you are only placing a picture in that cylinder.
5. Right click with the mouse and at the bottom you will see **format data** point in the pull down window.
6. Click on **Fill** then Picture or texture find file and the color then click on (**Stack – and Scale with**). 
7. The picture of Boxes is required in this lesson but in others graphs you will use other relative photos.
8. Choose Stack with (**5**) this will allow each picture to represent 5.
9. Place the chart under the column of students so the chart is embedded. (embedded means both chart and spreadsheet will printout together.
10. **SAVE YOUR LESSON** and printout a hard copy for me
