

## Lesson 1 In Matching Decimals Words to Numbers

Name \_\_\_\_\_

**Every time you have the answer to the written number write the letter that is listed above the correct decimal number to spell out the code. You will discover a number after the letter telling you how many times that letter is used. No number means once.**

- |   |  |
|---|--|
| 1. Seven and eight tenths = _____M              | 10. Four thousand and two tenths=_____Y              |
