

Lesson 2 Division by Repetitive Subtraction with a Remainder

Name _____

Directions: Click on the button at the top to view the video directions. You may look at the example on the first one and just simply repeat the same idea for all of the problems.

Division Problem	Repeated Subtraction	2 nd Column if needed	Answer
A) $15 / 6 =$	$15 - 6 = 9$ $9 - 6 = 3$ R = 3	$3 - 3 = 0$	2 R = 3
B) $19 / 5 =$	$19 - 5 = 14$ $14 - 5 = 9$ $9 - 5 = 4$ R = 4		3 R = 4
C) $35 / 10 =$	$35 - 10 = 25$ $25 - 10 = 15$ $15 - 10 = 5$ R = 5		3 R = 5
D) $29 / 7 =$	$29 - 7 = 22$ $22 - 7 = 15$ $15 - 7 = 8$ $8 - 7 = 1$ R = 1		4 R = 1
E) $49 / 7 =$	$49 - 7 = 42$ $42 - 7 = 35$ $35 - 7 = 28$ $28 - 7 = 21$ $21 - 7 = 14$	$14 - 7 = 7$ $7 - 7 = 0$	7 R = 0
F) $17 / 3 =$	$17 - 3 = 14$ $14 - 3 = 11$ $11 - 3 = 8$ $8 - 3 = 5$	$5 - 3 = 2$ R = 2	5 R = 2
G) $30 / 7 =$	$30 - 7 = 23$ $23 - 7 = 16$ $16 - 7 = 9$	$9 - 7 = 2$ R = 2	4 R = 2
