

DIRECTIONS FOR USING LESSON IN POWER POINT

1. Save the Power Point to your computer (remember where you saved it)
2. Open up power point to run this lesson.
3. You must **HIT F5** to run the program in order for it to run correctly.
4. Make sure you click on the buttons and numbers we have provided for you. If you make a mistake and click elsewhere on the slide the lesson will just go to the next slide. You may start over again.
