

## Lesson 1 add Fractions with Like Denominators

Name \_\_\_\_\_

*Directions: If you click on one of the two above icons they will allow an instructional video to play and illustrate subtracting mixed numbers. Some problems may require regrouping! Watch how that is done!*

**Example 1**  $\frac{3}{12} + \frac{5}{12} = \frac{8}{12}$

**Example 2**  $\frac{1}{5} + \frac{2}{5} = \frac{3}{5}$

1 )  $\frac{1}{4} + \frac{1}{4} =$

2 )  $\frac{3}{7} + \frac{3}{7} =$

3 )  $\frac{2}{10} + \frac{3}{10} =$

4 )  $\frac{2}{9} + \frac{4}{9} =$

5 )  $\frac{1}{9} + \frac{3}{9} =$

6 )  $\frac{3}{8} + \frac{3}{8} =$

7 )  $\frac{3}{11} + \frac{5}{11} =$

8 )  $\frac{1}{11} + \frac{2}{11} =$

9 )  $\frac{2}{6} + \frac{2}{6} =$

10 )  $\frac{1}{12} + \frac{3}{12} =$
