Lesson 3 Picture Graph

Name _____

Directions: Click on the button for a video presentation with directions and answers. Listed below is a spreadsheet where you will determine using picture graph information that will be presented to you. You will find a key that will represent a total number per picture and you may use that key to create your picture graph. Why use or create a picture graph? In graph theory, a pictograph is a graph that shows numerical information by using picture symbols or icons to represent data sets. The advantage of using a pictograph is that it is easy to read and much better to grasp what is being revealed.

POPULATION OF THE WORLD

For the purpose of understanding this type of list, you must understand that the population is so much larger in different parts of the rest of the world we needed to adjust the numbers to accommodate this concept.

World Population

Population by Millions	USA	Canada	Australa	Russia	China	India	United Kingdom
1,400,000,000							
1,350,000,000							
1,300,000,000							
1,250,000,000							
1,200,000,000							
1,150,000,000							
1,100,000,000							
1,050,000,000							
1,000,000,000							
950,000,000							
900,000,000							
850,000,000							
800,000,000							
750,000,000							
700,000,000							
650,000,000							
600,000,000							
550,000,000							
500,000,000							
450,000,000							
400,000,000							
350,000,000							
300,000,000							
250,000,000							
200,000,000							
150,000,000							
100,000,000							
50,000,000							
40,000,000							
35,000,000							
30,000,000							
25,000,000							

USA = 327,865,881
CANADA= 36,839,935
AUSTRALA = 29,476,911

RUSSIA =143,412,531
CHINA = 1,392,347,217
INDIA = 1,351,965,258

UNITED KINGDOM =65,742,800

Key X= 50,000,000
