

## LESSON 6 PLACE VALUE

Name \_\_\_\_\_

Rename each number by regrouping. Take from the tens place and give to the ones place as shown in the example

$$0) \quad 37 = \overset{2}{\cancel{3}} \text{ Tens and } \overset{17}{\cancel{7}} \text{ ones} = \underline{2} \text{ Tens and } \underline{17} \text{ Ones}$$

$$1) \quad 85 = 8 \text{ Tens and } 5 \text{ ones} = \underline{\quad} \text{ Tens and } \underline{\quad} \text{ Ones}$$

$$2) \quad 72 = 7 \text{ Tens and } 2 \text{ ones} = \underline{\quad} \text{ Tens and } \underline{\quad} \text{ Ones}$$

$$3) \quad 60 = 6 \text{ Tens and } 0 \text{ ones} = \underline{\quad} \text{ Tens and } \underline{\quad} \text{ Ones}$$

$$4) \quad 90 = 9 \text{ Tens and } 0 \text{ ones} = \underline{\quad} \text{ Tens and } \underline{\quad} \text{ Ones}$$

$$5) \quad 19 = 1 \text{ Tens and } 9 \text{ ones} = \underline{\quad} \text{ Tens and } \underline{\quad} \text{ Ones}$$

$$6) \quad 28 = 2 \text{ Tens and } 8 \text{ ones} = \underline{\quad} \text{ Tens and } \underline{\quad} \text{ Ones}$$

$$7) \quad 73 = 7 \text{ Tens and } 3 \text{ ones} = \underline{\quad} \text{ Tens and } \underline{\quad} \text{ Ones}$$

$$8) \quad 94 = 9 \text{ Tens and } 4 \text{ ones} = \underline{\quad} \text{ Tens and } \underline{\quad} \text{ Ones}$$
