

Lesson 2 Slope Intercept Name _____

Directions: Click on the button to play the video providing you with directions and answers. You are given for this lesson the values of m and b. Place a mark on the grid below where the equation tells you. (BASIC) $Y=mx + b$. The letter m represents the slope and the letter b represents where y is on the grid. The equation for you to use in this lesson is shown on the right.

$$y = 3x + 4$$

X	Y
0	4
1	7
2	10
3	13
4	16
5	19
