

LESSON 3 GOOGLE SLIDES *creating an Interactive nonlinear show*

In this lesson you will create an interactive nonlinear presentation. You will only have 4 slides to work with but learning from the 4 slides will allow you to create a slide presentation in the future with as many slides as necessary.

We have place some example questions and answers in the video. You my adjust your questions and answers to whatever school topic you are interested in. All slides must be hyperlinked and each slide should have a question and answer.

Remember that you may copy parts of the lesson so you do not have to recreate..
