

**LESSON 2 GOOGLE DOCUMENTS *Thinking outside the box***

***I wish to have you take home this lesson and think about it. You are going to reflect about something that is not homework.***

***Explain in the two paragraphs listed below the difference between Misinformed and Uninformed. Which one will cause the least amount of problems? Which one will instigate the least about of problems? Do you have confidence in everything you read in the papers and watch on TV? Take your time and think this one through. You may wish to go to google search if you feel you need some assistance. Create two paragraphs each one should have no fewer than 4 or 5 sentences. Look at source and effect and how it will change the population. I would like for the class to discuss this on Monday. You may use the format below. Make sure you save your work as we will create a green screen presentation.***

***Misinformed***

***Uninformed***
