This course will allow you to make a presentation that is quick and easy and provide your students with an visual of what you are presenting to them.

This course is designed to be completed in 12.5 hours or more depending on the difficulty of your lessons. You are required to create one (1) lesson. The area of your lesson will be determined by what subject and grade level you are currently teaching I do not now or ever ask an educator to create a lesson they will never use. You may wish to use this lesson in your classroom which will provide your students with an outstanding example of what they may do if you assign this to them. This form of presentation is also an outstanding tool allowing you to demonstrate to your students many different ideas, activities and history going on in the world.

This course is designed to provide you with an easier method of teaching and assist in facilitating lessons with students that have a problem learning. You will not have a face-to-face meetings or online chat sessions with this course. The website will provide you with all the instructions necessary with an example and videos.

You will discover over time that your students will be looking forward to this lesson allowing them to fully express what they have learned if they are going to create their own lesson.

First let's get to know the parts of the lesson and how they work together.

1) Choose a theme that involves is going to be beneficial for your class. Area of interest, historical location something similar in concept. If you wish to go to a city or provide a photo of an interesting place at any location.

2) You will notice from the examples that you may create a worksheet allowing you and your students to type in their longitude and latitude.

3) You will also need to open up your google account allowing you to obtain full access to what your presentation is about. When submitting your lessons for a

grade place the location of each place on the table in the document I will provide for you a blank one for you to use.

I believe you will discover that none of the above is difficult but if you use this as an example for your students it will make your job not only easier but more fun.

Please email me your phone number, name of your school and grade level and subject upon registering for the class. I will provide a call to clear up any questions you may have. Registration may take place at any time during the year. There is not a set beginning or end time. You must finish by the date we have posted on the Course web page. Teachers may choose to take (start) this class at any time prior to the ending date. The span of time needed to complete the course is normally three weeks from the date that you start the class. If you need more time just email me to adjust with you.
