

3D SHAPES - 2

Lesson 2 Name _____

1. Write the name and number of the shape in the space provided
2. Scan in the QR Code to check your answers

CUBE
CONE
PYRAMID
CUBOID (RECTANGULAR PRISM)
TRIANGULAR PRISM
SPHERE
CYLINDER

1) I have 1 flat surface and 1 curved surface. My flat face is circular. My curved surface makes a sharp point. I don't have sides. I look like a party hat!
What am I? _____

2) I have 2 flat surfaces and 1 curved surface. My flat surfaces are circular. I don't have any sides or corners.
What am I? _____

3) I am a solid 3D that is perfectly round. I don't have flat faces and I don't have straight edges.
What am I? _____

4) I have 6 flat faces, 12 edges, and 8 corners. NOT all my edges are the same. I look like a box.
What am I? _____

5) I have 6 flat faces, 12 edges, and 8 corners. All my edges are the same.
What am I? _____

6) I have 5 flat surfaces. My base surface is square. The other 4 surfaces are triangular, that make a sharp point.
What am I? _____

7) I have 5 flat surfaces. 2 of them are triangular. 3 of them are rectangular.
What am I? _____
