

Multiplication Comparisons

LESSON 1 NAME _____

1. Complete each problem

2. Scan in the QR code when completed to see if your answer is correct.

- 1) A library checks out four fiction books and two non-fiction books an hour. How many times more fiction books do they check out than non-fiction books?

- 2) There were twenty-one adults in line at a movie theater. That is three times the number of children in line. How many children were in line?

- 3) A restaurant sold eight times as many salads as they sold steaks. If they sold four steaks, how many salads did they sell?

- 4) A restaurant sold nine salads and forty-five steaks. How many times as many steaks did they sell as salads?

- 5) A pet store sold two cats. They sold six times as many dogs as they sold cats. How many dogs did they sell?

- 6) Oliver was counting his spare change. He had ten dimes and two quarters. How many times as many dimes does Oliver have than quarters?

- 7) There were thirty-two adults and four children in line at a movie theater. How many times more adults were in the line than children?
