

Adding Fractions

Lesson 1 Name _____

- 1) Solve each problem listed below.
- 2) When done scan in the bar code to see if you are correct.
- 3) If the denominators are different, find the least common denominator (LCD). And add the numerators.

1. $\frac{7}{18} + \frac{1}{3}$

2. $\frac{1}{6} + \frac{5}{12}$

3. $\frac{1}{2} + \frac{9}{20}$

4. $\frac{2}{9} + \frac{5}{9}$

5. $\frac{3}{4} + \frac{1}{20}$

6. $\frac{4}{15} + \frac{3}{5}$

7. $\frac{1}{20} + \frac{1}{10}$

8. $\frac{3}{20} + \frac{3}{4}$

9. $\frac{1}{7} + \frac{3}{7}$
