

Proportions

Lesson 1 Name _____

1) Solve each equation below in the space we have provided. Make sure you show all your work.

2) When you are done scan the QR code to view answer to determine if you were correct.

1 a. $\frac{48}{72} = \frac{x}{36}$

1 b. $\frac{6}{18} = \frac{x}{36}$

2 a. $\frac{40}{90} = \frac{b}{18}$

2 b. $\frac{1}{13} = \frac{b}{65}$
