

# Proportions

Lesson 1 Name \_\_\_\_\_

- 1) Solve each equation below in the space we have provided. Make sure you show all your work.
- 2) When you are done scan the QR code to view answer to determine if you were correct.

**1 a.**  $\frac{48}{72} = \frac{x}{36}$

**1 b.**  $\frac{6}{18} = \frac{x}{36}$

**2 a.**  $\frac{40}{90} = \frac{b}{18}$

**2 b.**  $\frac{1}{13} = \frac{b}{65}$
