

Problem 1: Solve the story problem

An equal number of doctors and nurses are working in the emergency room. There are 14 workers in all. How many nurses are there?

Doctors	Nurses	$\underline{\hspace{1cm}} + \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$
---------	--------	--

How many nurses are there? _____

Problem 2 Solve the story problem.

Jenna has 12 coins. An equal number of them are quarters and dimes. How many of them are quarters?

$\underline{\hspace{1cm}} + \underline{\hspace{1cm}} = 12$

Total number of Quarters _____

Problem 3 Solve the story problem.

The toy store sold a certain number of race cars in 1 week. The number had 3 hundreds 4 tens and 6 ones. Write the number in expanded form. Then write the number in standard form.

Expanded form

Standard form

$\underline{\hspace{1cm}} + \underline{\hspace{1cm}} + \underline{\hspace{1cm}} = \underline{\hspace{1cm}}$

Problem 4: Solve the story problem.

Penny's school collected 768 cans of food for the food drive. Write how many hundreds, tens, and ones are in the number 768. Then write the expanded form.

_____ hundreds _____ tens _____ ones

$\underline{\hspace{1cm}} + \underline{\hspace{1cm}} + \underline{\hspace{1cm}}$
