

A Vertices is a point where two or more straight lines meet.
Corner

1. Say the name the shape in green. Write the number of vertices. Color the shapes that match. Put X's on the shapes that do not match

2. Name the shape of the object in the first row. Circle the object that matches.

3. Name the shape in the box. Describe it using the word "round" and by telling the number of vertices and sides. Circle the matching shape.

4. Color the spheres blue and the cubes green. Draw an X on the cubes.
