

Google Lesson Using Google Earth

Lesson C Your Name _____

Directions: Your computer will need to be set up for Google Chrome. We have placed latitude and longitude numbers below where you will discover certain national parks.

<https://www.google.com/earth>

1. Type in or click the link above
2. Once you click on the link, you will see Google Earth.
3. Click on Launch Google Earth in Chrome. When you click wait a few seconds and Google Earth will appear with a menu on the left side for you to use.
4. Click on the searching glass and paste the coordinates that you just copied and hit your enter key. This will take you to the location you pasted.
5. You may use “zoom in” using the wheel on your mouse or the +/- in the lower right section of the screen. In the space provided be sure to type in the national park and description of important landmarks of this area.
