

INTERACTIVE SLIDE AND POWER POINT

1. *Open up your google slide or Power Point.*
2. *Click to obtain a blank slide*
3. *In this lesson you are going to ask the students to place different color birds on a graph depending by color and number.*
4. *Create your graph placing the colors down one side.*
5. *Place a table on the other side listing the color of each bird and the number of birds per color.*
6. *At the bottom of the slide you will place one bird for each color*
 - a. *The student may duplicate the birds by the keys Control D*
 - b. *Duplicate the number need for each color when you have the first bird in place.*
 - c. *Example of lesson is listed below*

Color	# of	
Birds	Birds	
RED	3	RED
GREEN	4	GREEN
BLUE	2	BLUE
YELLOW	3	YELLOW
ORANGE	5	ORANGE
