

LESSON 4 GOOGLE SLIDES *Multiple Choice*

In this lesson you will discover a dissimilar version of power point slides. You are presented a format that has already been completed for the most part for you. You will have only several links and questions that you must add to the slide to complete the lesson. Your questions should be in reference to Social Studies, Science or English. The process is quite simple but, you must pay attention to what slides you are adjusting the links to. Listed below is an illustration of the lesson. The video we have provided for you has detail information in reference to linking using Google Slides.
