## LESSON 8 CREATING A VIDEO STORY

1. Create your own story.
2. Open up Google Docs blank sheet.
3. Go to website listed below or jump to 5.
4. http://www.teched-resources.org/creating_a_digital_story_book_an.htm
5. Or go to technology website and scroll down to Classroom Projects and click on (Creating a story and documentary)
6. You will find two sets of photos you may use in your story.  If you have a better set of photos please use them.
7. The story needs to have at least two (2) lines under each photo and should be at least **8** pages long.
8. If you cannot think of a story yourself you may **CLICK ON (STORY)** button from the main technology webpage and then click on (**STORY TIME**)  If you use Mac  {**Shift - Control – Command keys and #4**} to copy an area of the screen. If Windows use the **Snipping tool.**
9. Convert your pages to a PDF file and remember where you saved it.
10. Go to **https://voicethread.com/**  login or if your new to create your video.
    a. Register voice thread.
    b. You will receive an email to confirm.
    c. Sign in again.
    d. Click on **CREATE** located at the top of the screen.
    e. Find and upload your PDF slide show.
    f. Add title if you wish.
    g. Click on **COMMENT** at the top this will get the recording process ready.
    h. If you wish to be in a quiet place while you record your voice you may go into another room or into the fishbowl.
11. When you click on that a little icon at the bottom a mic shows along with several other things you may do. This will record on the first page click the icon to the right to bring the other pages.
12. Click stop recording and wait a few seconds and your recording will sound. Upload it you think it is good.
13. You may make a video story using the camera if you wish to be in the story.
14. You may record again if you do not like the recording or hit save if you are done.
    a. The recording will play right after you stop recording
    b. You may use the pen to write on the story if you want.  Click the bottom of the pen look for the WORDS  FADE- NO FACE choose nofade so it will not fade.  You will see the message.
15. When you are done hit save and it will be uploaded
16. Copy the link and save it to be used later.  Paste the link in a document and then call me over to show me what you have done.  Save your code in a document with your name.
