Multiplication Comparisons

LESSON 1 NAME _____

1. **Complete each problem**
2. **Scan in the QR code when completed to see if your answer is correct.**

1) A library checks out four fiction books and two non-fiction books an hour. How many times more fiction books do they check out than non-fiction books?

2) There were twenty-one adults in line at a movie theater. That is three times the number of children in line. How many children were in line?

3) A restaurant sold eight times as many salads as they sold steaks. If they sold four steaks, how many salads did they sell?

4) A restaurant sold nine salads and forty-five steaks. How many times as many steaks did they sell as salads?

5) A pet store sold two cats. They sold six times as many dogs as they sold cats. How many dogs did they sell?

6) Oliver was counting his spare change. He had ten dimes and two quarters. How many times as many dimes does Oliver have than quarters?

7) There were thirty-two adults and four children in line at a movie theater. How many times more adults were in the line than children?
